Bheart Shrestha

Front-End Web Developer

Summary

Currently working as a freelancer in Nepal. Progress driven person who loves creating beautiful and responsive websites. Always looking forward to open source projects and contribute with other developers. Looking to relocate from Nepal and embark on my next journey as a developer and bring value working on building bigger ideas.

Education

Kathmandu University (KU)
Computer Engineering
2017 - 2020

freeCodeCamp — *Front-End*
February 2019 – July 2019

Built multiple projects that challenged and pushed my skills as a
developer by exposing me to new concepts and best practices. Estimated
course time is 400+ hours.

Udemy — *Front-End*
February 2019 - July 2020

Learned from several Udemy courses on HTML5, CSS3 and JavaScript. Spent
most of my time on Udemy learning about ES6+ and Asynchronous
JavaScript. Estimated course time is over 100 hours.
